

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

AVAILABILITY OF MONITORING DATA FOR UNREGULATED CONTAMINANTS FOR

City of Spencer Waterworks WV 3304405

Our water system has sampled for a series of unregulated contaminants. Unregulated contaminants are those that do not yet have a drinking water standard set by the US Environmental Protection Agency (EPA). The purpose of monitoring for these contaminants is to help EPA decide whether the contaminants should have a standard. As our customers, you have a right to know that this data is available.

If you are interested in examining the results, please contact:

This memo is to relieve any concerns about the City of Spencer Waterworks water quality regarding the recent letter sent out by our office. Spencer Waterworks conducted testing in February 2024, May 2024, August 2024 and November 2024 for various unregulated contaminants per the EPA. All samples analyzed by a lab from those periods were found to have levels below the minimum reporting levels (MRL). All Public Water Systems were required to notify their customers to inform them testing had been conducted and the information was available for review. Results relevant to Spencer Waterworks are available for review at the City of Spencer Waterworks office, the City of Spencer Website and the City of Spencer WV Facebook page. We are sorry if this caused concern over the quality of water we produce.

Sincerely,
City of Spencer Waterworks
